

## § 1355.30

interventions to meet the needs of the family and the best interests and need of the individual(s) who may be placed in out-of-home care.

(e) Services are timely, flexible, coordinated, and accessible to families and individuals, principally delivered in the home or the community, and are delivered in a manner that is respectful of and builds on the strengths of the community and cultural groups.

(f) Services are organized as a continuum, designed to achieve measurable outcomes, and are linked to a wide variety of supports and services which can be crucial to meeting families' and children's needs, for example, housing, substance abuse treatment, mental health, health, education, job training, child care, and informal support networks.

(g) Most child and family services are community-based, involve community organizations, parents and residents in their design and delivery, and are accountable to the community and the client's needs.

(h) Services are intensive enough and of sufficient duration to keep children safe and meet family needs. The actual level of intensity and length of time needed to ensure safety and assist the family may vary greatly between preventive (family support) and crisis intervention services (family preservation), based on the changing needs of children and families at various times in their lives. A family or an individual does not need to be in crisis in order to receive services.

**§ 1355.40 Foster care and adoption data collection.**

(a) *Scope of the data collection system.*

(1) Each State which administers or supervises the administration of titles IV-B and IV-E must implement a system that begins to collect data on October 1, 1994. The first transmission must be received in ACF no later than May 15, 1995. The data reporting system must meet the requirements of § 1355.40(b) and electronically report certain data regarding children in foster care and adoption. The foster care data elements are listed and defined in Appendix A to this part and the adoption data elements are listed and defined in Appendix B to this part.

(2) For the purposes of foster care reporting, each State's data transmission must include all children in foster care for whom the State title IV-B/IV-E agency has responsibility for placement, care, or supervision. This includes Native American children covered under section 427 protection on the same basis as any other children. For children in care less than 30 days, only a core set of information will be required, as noted in appendix A to this part. For children who enter foster care prior to October 1, 1995 and who are still in the system, core data ele-

ments will be required; in addition, States will also be required to report on the most recent case plan goal affecting those children. For children in out-of-State placement, the State placing the child and making the foster care payment submits and continually updates the data.

(3) For the purposes of adoption reporting, data are required to be transmitted by the State on all adopted children who were placed by the State title IV-B/IV-E agency, and on all adopted children for whom the State agency is providing adoption assistance (either ongoing or for nonrecurring expenses), care or services directly or by contract or agreement with other private or public agencies. Full adoption data as specified in appendix B to this part are required only for children adopted after the implementation date of October 1, 1994. For children adopted prior to October 1, 1994, who are continuing to receive title IV-E subsidies, aggregate data are to be reported. For a child adopted out-of-State, the State which placed the child submits the data.

(b) *Foster care and adoption reporting requirements.* (1) The State agency shall transmit semi-annually, within 45 days of the end of the reporting period (i.e., by May 15 and November 14), information on each child in foster care and each child adopted during the reporting period. The information to be reported consists of the data elements found in appendices A and B to this part. The data must be extracted from the data system as of the last day of the reporting period and must be submitted in electronic form as described in appendix C to this part and in record layouts as delineated in appendix D to this part.

(2) For foster care information, the child-specific data to be transmitted must reflect the data in the information system when the data are extracted. Dates of removal from the home and discharge from foster care must be entered in accordance with paragraph (d)(1) of this section. The date of the most recent periodic review (either administrative or court) must be entered for children who have been in foster care for more than nine months. Entry of this date constitutes
